### 3. Se deschide fisierul downloadat

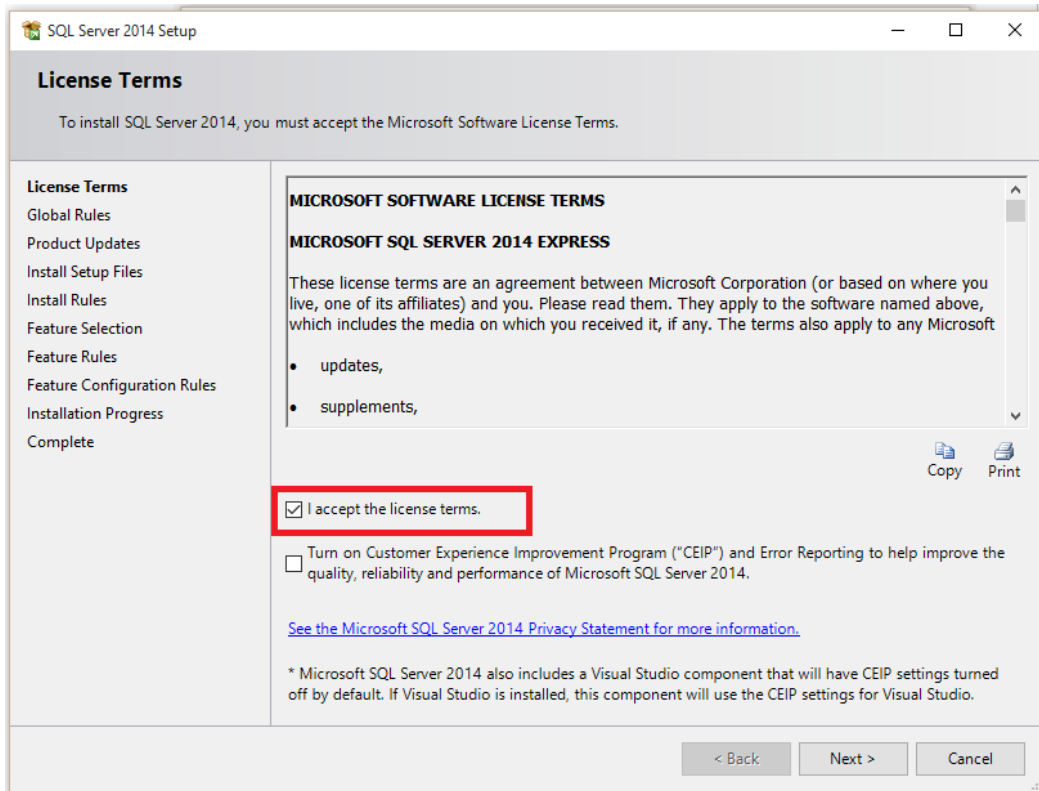

Se defineste calea unde vor fi extrase fisierele.

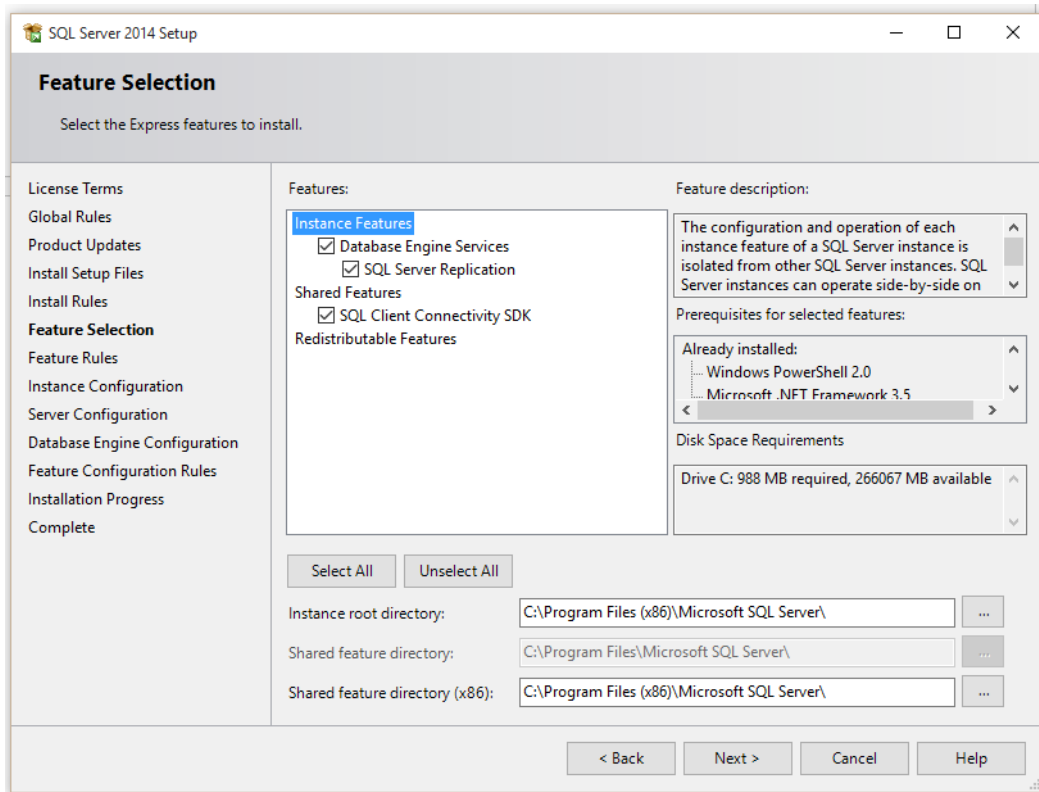

### 4. Se instaleaza o instanta noua de SQL Server

5. Se citesc termenii de licentiere, se bifeaza casuta de accept si se da next.

6. Se aleg caracteristicile dorite. Se poate lasa default ca mai jos. Se apasa Next.

7. Se configureaza instantele de server. Se pot instala mai multe instante.

The screenshot shows the 'Instance Configuration' window in the SQL Server 2014 Setup. The window title is 'SQL Server 2014 Setup'. The main heading is 'Instance Configuration' with a subtitle 'Specify the name and instance ID for the instance of SQL Server. Instance ID becomes part of the installation path.' On the left is a navigation pane with the following items: License Terms, Global Rules, Product Updates, Install Setup Files, Install Rules, Feature Selection, Feature Rules, **Instance Configuration**, Server Configuration, Database Engine Configuration, Feature Configuration Rules, Installation Progress, and Complete. The main area contains two radio buttons: 'Default instance' (unselected) and 'Named instance:' (selected). Below the 'Named instance:' radio button is a text box containing 'SQLExpress'. Below that is another text box labeled 'Instance ID:' containing 'SQLEXPRESS'. Further down, it shows the 'SQL Server directory:' as 'C:\Program Files (x86)\Microsoft SQL Server\MSSQL12.SQLEXPRESS'. Below this is a section titled 'Installed instances:' which contains an empty table with headers: Instance Name, Instance ID, Features, Edition, and Version. At the bottom right are four buttons: '< Back', 'Next >', 'Cancel', and 'Help'.

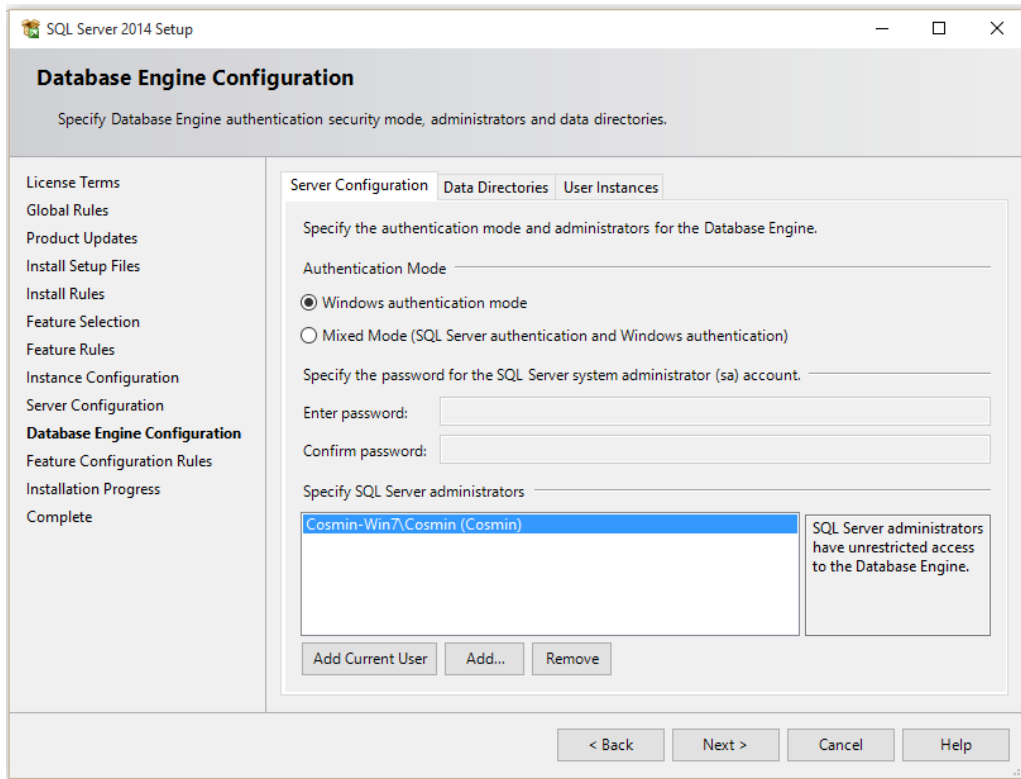

8. Se configureaza serverul

The screenshot shows the 'Server Configuration' window in the SQL Server 2014 Setup. The window title is 'SQL Server 2014 Setup'. The main heading is 'Server Configuration' with a subtitle 'Specify the service accounts and collation configuration.' On the left is a navigation pane with the following items: License Terms, Global Rules, Product Updates, Install Setup Files, Install Rules, Feature Selection, Feature Rules, Instance Configuration, **Server Configuration**, Database Engine Configuration, Feature Configuration Rules, Installation Progress, and Complete. The main area has two tabs: 'Service Accounts' (selected) and 'Collation'. Below the tabs is a message: 'Microsoft recommends that you use a separate account for each SQL Server service.' Below this message is a table with the following data:

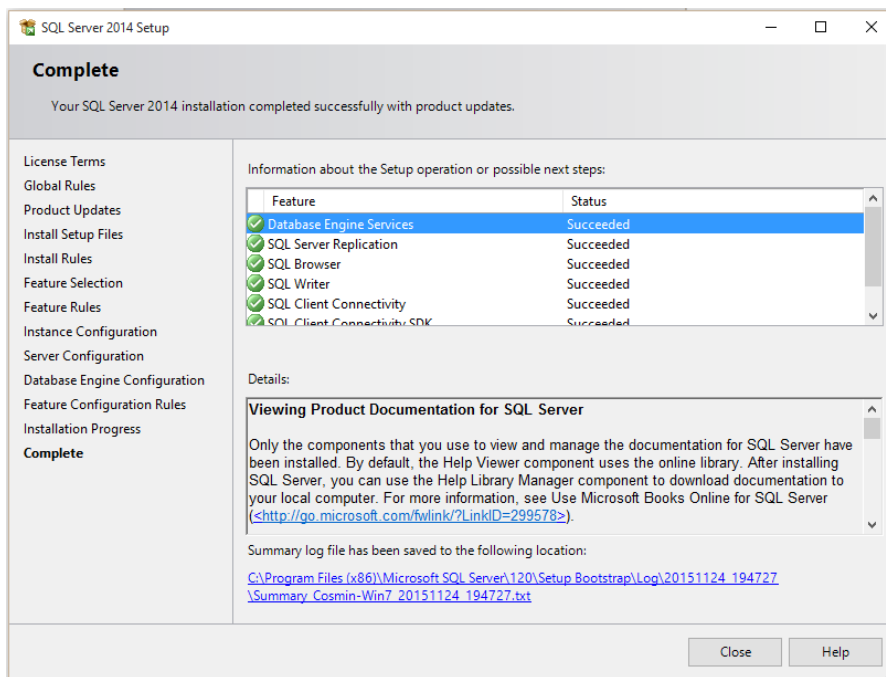

Service	Account Name	Password	Startup Type
SQL Server Database Engine	NT Service\MSSQL\$SQL...		Automatic
SQL Server Browser	NT AUTHORITY\LOCAL ...		Disabled

At the bottom right are four buttons: '< Back', 'Next >', 'Cancel', and 'Help'.

9. Se configureaza utilizatorii. Daca se lasa ca mai jos autentificarea in SQL Server se va face folosind userul si parola de Windows

10. Dacă instalarea s-a finalizat cu succes ar trebui să vă apară ecranul de mai jos.
